

Government of Nepal
MINISTRY OF FOREIGN AFFAIRS
Kathmandu, Nepal

Press Release

The Government of Nepal is following with serious concern the recent developments in the West Asian region. The region hosts a large number of Nepali migrant workers and therefore security and safety of our people in the region becomes a matter of utmost priority for Nepal. We call upon all sides to exercise restraints from taking measures and actions that contribute to the escalation of tension and endanger peace and stability in the region. It has been a principled position of Nepal that all disputes and differences must be resolved through peaceful means.
